#ExcelEcoElements

All Style, All Substance

An Earth Changing Fabric Collection

Ecological, innovative, sustainable and waste reducing. Fabrics that are not only demonstrative of our commitment to the future of our planet, they retain the excellent quality and longevity that you'd expect from us and they look amazing too.

Florabundance - Damson

EMBRACE YOUR INDIVIDUALITY

Fashion Forward Recycled Content.

The benefit of a full collection of eco friendly fabrics is the chance to move beyond the limits of a capsule range of colours and textures.

Alongside more traditional themes, classic plains and textures are statement designs for those who want their fabrics to reflect their own distinct aesthetic whilst taking steps toward a more sustainable future.

Both stylish and practical, all the fabrics in our Design Gallery are inherently Fire Retardant too.

Mudcloth - Navy

Deco - Dusk

ONE STYLE DOESN'T FIT ALL

Sustainability for Everyone.

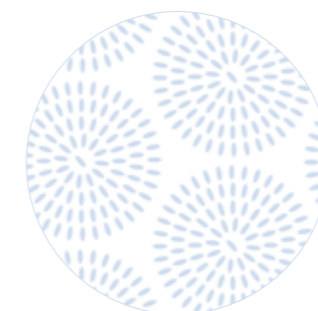

Because we want a recycled choice to be available to everyone, we have included a bespoke option for a range of designs within the Eco Elements collection.

Find your inner interior designer with the option to colour match the background or motif to a paint colour, fabric, pantone etc. A truly limitless spectrum.

Deco (left) for example, can be personalised via the background or the fan motif or both (2 colour maximum).

Order as an individual Digital Print Roller.

Look for the paint drip icon on the fabric label for more of these adaptable patterns.

Ashdown - Snowdrop

Olive - Winter

Flowerbomb - Meadow

EMBRACING NATURE

Bring the outside in.

Reconnecting with the earth and our natural surroundings has proven health and well-being benefits that have been influencing trends for calmer, natural atmospheres in the home.

Lift indoor moods with floral and botanical elements with comforting colour palettes and create a space for contentment. Lift outdoor moods by supporting the expansion of woodland in the UK.

Every Eco Elements sample book bought by our stockists plants a tree in Yorkshire with The White Rose Forest.

CHILD SAFE BY DESIGN

Choices for the next generation.

Curious, growing minds are a joy to watch develop. Exploring, crawling and climbing. Before you know it they are up on the windowsill looking for the perfect view of the outside world.

Most accidental deaths involving blind cords occur in children between 16 and 36 months and this is the reason why child safety is at the forefront of our manufacturing process and no blind leaves the premises without safety devices installed and within the legal cord length requirements.

A range of child safe chainless components and options such as slow rise, motorised or handle controls are available for that extra peace of mind.

#ForTheirFuture

TEXTURED EMBELLISHMENT

Neutral and Contemporary Tones.

Roller blind fabrics that are perfect for bringing a more neutral harmonious quality to your interior.

Sophisticated and tactile in natural fabric shades. Textures are effortlessly luxurious and perennially popular.

Jacquard, sheer, woven and luxe velour for an elegant diffusion of light.

Provence - Moss

Contour - Ivory

Fossil - Bronze

Ohm - Peanut

Brodie Fern - Mocha

Beach Hut - Marina

PRIVACY & LIGHT CONTROL

Reduce light and energy with Blockout.

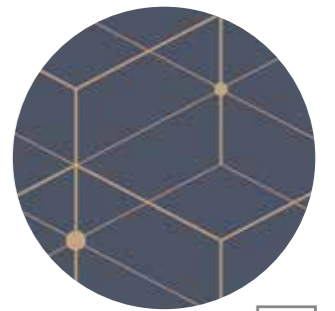

Blockout blinds neutralise light while acting as a barrier between the windows and the inside of the home.

Save energy by closing your blinds as the sun goes down to retain warm air in the room and keep out the cold of the night. Warm the room up naturally during the day by allowing in sunlight. Reduce summertime heat and the need for air conditioning by keeping them closed on hot days.

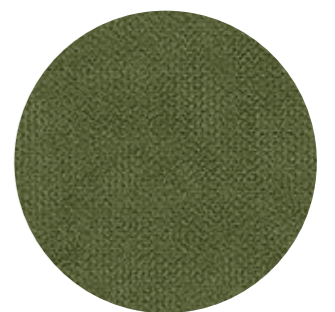

A third of the heat lost in a house is through the windows.

Pasadena Blockout - White

Circuit -Midnight

Nocturne - Forest

Pappus - Lagoon

#SaveEnergy

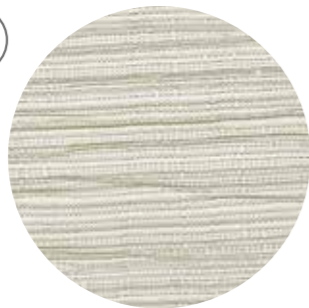

SIMPLY VERTICAL & ROLLER

Fresh hues for every window.

A range of cosmopolitan colours and modest textures available as both vertical and roller blinds for a range of uses with varied price points for every budget.

The ASC thermal fabrics in this selection have an aluminium backing that keeps the heat out in the summer and retains heat in the winter for measurable reductions in your energy usage.

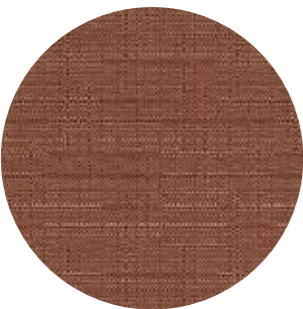

The Energy Saving bulb symbol is used against thermal fabrics that contribute to lower energy usage in the home

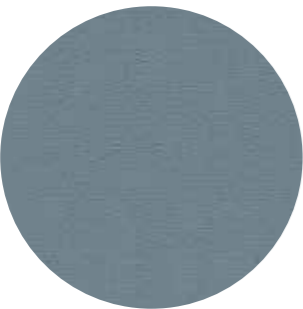

Reed ASC - Sahara

CERTIFIED TRACEABILITY

FABRIC
SYMBOL

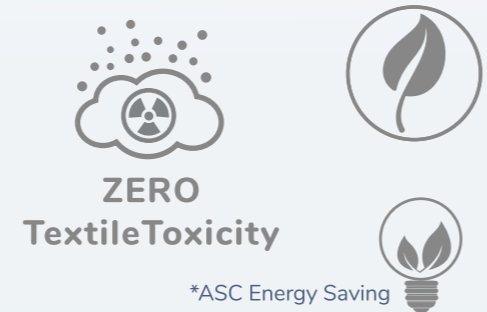

Ecoweave® Recycled Fabrics
The high % of recycled PET fibres in our recycled Ecoweave® fabrics takes 8 times less energy to produce than the equivalent in new ones. Recycled yarn suppliers convert more than 2 million bottles a day into textile yarn. The recycling of just 1 million plastic bottles can eliminate 180 tonnes of CO2 emissions from being released into the atmosphere *Approximately 130kg of waste plastic bottles will make 1000 m² of fabric.

Cradle to Cradle Fabrics
Entirely recyclable in their complete form, these fabrics all carry the acclaimed Cradle to Cradle® Certification. The global standard for products measuring the environmental and social sustainability of products that are safe, circular and responsibly made. Products are assessed across five sustainability focus areas: Material Health, Product Circularity, Clean Air & Climate Protection, Water & Soil Stewardship, and Social Fairness.

Environmentally Eco-Friendly Fabrics
Fabrics that carry the OEKO-TEX® standard 100 label have been tested for regulated and non-regulated substances. In many cases the limit values for these goes beyond national and international requirements. These fabrics carry no harmful chemicals and therefore carry low chemical emissions in their production and use. The Energy Saving *bulb symbol used against thermal fabrics that contribute to lower energy usage in the home.

BLINDS PACKED WITH ECO-FRIENDLY MATERIALS

- Recyclable Content. Recycle again and help us close the plastic cycle.
- All plastic packing materials have now been replaced with friendlier alternatives: Recycled waste plastics (BioBubble, rPet Polytubing), Plant based tape adhesive.
- As a manufacturer, we pledge to visibly reduce our carbon footprint year on year.
- This brochure has been printed by B&B Press, a certified World Land Trust Printer.

SUPPORTING WOODLAND

EACH ECO ELEMENTS BOOK = ONE TREE

The White Rose Forest is the community forest for North and West Yorkshire, working with landowners, local government, communities and businesses to plant trees where they are needed the most. They have an ambitious plan to plant 7 million trees across the region by 2025 and we want to help.

For every sample book we sell to our customers one tree will be donated to The White Rose Forest to plant within Yorkshire to help expand our local woodland and improve our natural environment.

We will also be fundraising for them throughout the year and adding links to our digital acknowledgements that we hope will encourage others to donate small amounts with purchases.

You can also contribute directly and help plant even more trees.
